In 2009, a star is born in the galaxy of alumni societies, associations and organizations under the name of *FEU Med Tech Alumni Ass. of North America* and registered in the province of British Columbia as non-profit association. It slowly gained luminance as the dreams and aspirations of a few alumni manifested and became solid realities. Its apogee was reached on December 12, 2012 when the name was changed to ***FEU-NRMF Medical Technology International Alumni Society,*** to reflect its international presence and a greater mandate to "give back" to our Alma Mater and share our lives with fellow graduates and do outreach programs. Guided by the vision of the original founders and strengthened by the Board of Directors, Officers and dedicated member alumni from all over the world, the Society continue to change, evolve and develop. The inspiration and encouragement from our Philippine colleagues of the FEU-NRMF School of Medical Technology added to the ***spirit*** come alive.

III. PROJECTS and OUTREACH:

2010

On a visit with the officers of MTAS at Fairview, Bert Gomez provided a grant of $50 to update the website of the FEU-NRMF MT Alumni Society.

2011

On January 6, 2011 – two new projects were unveiled and completed a year later.

1. Contest for the Creation of an International Logo ($50): Kitzuere Pineda
2. Grant of $200 for the Updating of the Alumni Registry (check the FEUMTAS website).

2014

In 2014, when Western Visayas was ravaged by typhoon Yolanda, the Society provided $8,000 for the rehabilitation of the Samar and Leyte. Funds were channeled through Sor Pat Martinez of the ICM Sisters in the Philippines. The funds came from Maxi Edora & Friends ($1,000), A Gift from the Heart Foundation ($4,000) and from the Society ($3,000).

2018

The Aeta Project is the biggest outreach project of our Society. It is joint venture between the Aeta Foundation USA and MTIAS to provide lifegiving gifts to the indigenous Aetas of Pampanga, Zambales and Tarlac. Headed by our very own President Maxi Cruz Edora and past President Dan Dominguez, our Society was able to provide hundreds of 5-gallon water containers, food necessities and 6 carabaos at $500 each. Thanks to our sponsors who provided the needed cash! $3,255.00 total donations as per report from Aeta Foundation.

A Journey to remember….

I would like to share with you our experiences when we joined Fernando Briosos and Marian Castillo of the Aeta Tribe Foundation last January.

Together with Maxi Edora, our current FEU-NRMF MTIAS president and our spouses, we managed to visit different Aeta villages. It was such a wonderful and satisfying feeling to see them first hand and getting to know more about their lives and current situations. Thru the efforts of the Aeta Tribe Foundation, local government officials, Aeta representatives and some support from the Lions club as well, we made significant contributions to their well - being and daily lives.

Our Society, was able to contribute in the distribution of water containers and donation of 6 carabaos, slippers and clothes. I would like to thank all alumni who donated for this cause. We will not forget these experiences!!!

I can also say with great feeling that this experience opened up my eyes, that we are very lucky to be on the beautiful side of life. I feel it's time to think of how we can give or look back to help others.

I would like to thank Fernando and Marian personally for all the hard work they are doing for the Aeta tribes. They need all the necessary support to continue their mission. I also would like to extend my sincere appreciation to the Mayor, Vice-mayor and local officials of Botolan for their hospitality and support during our stay on this wonderful trip.

Lastly, let's continue what we have started and let's share great ideas to keep this community service more rewarding and fruitful. Join and be connected!

To be involved as an organization or Alumni Society, we deeply care about our mission and goals. We want to make a difference!

Thank you.

2019

Our current president Cyd Sartoris, with Maxi Edora and Bert Gomez made a site visit on January 15, 2019 with the ANAK and
PPF organizations (US$250 one-time gift to each organization). Likewise, a new project called Lablihood initiated by MTAS got a boost from a $500 donation from Cyd Sartoris. More information on these initiatives is available in our website.

On September 19, 2019, finalized a partnership with the Missionaries of Jesus to fund the education of 10 "lumads" in Malita, Davao Occidental through the MATAMIS PROJECT - **Ma**lita **Ta**gakaolo **Mis**sion. A grant of US$2,000 covers $1,800 for ten students and $200 for the development of teachers. This is a follow up of our mission to help our indigenous people like the one we started in 2018 with the Aeta Foundation.

2020

On May 28, 2020 a grant of US$2,000 to cover the $1,800 for ten students and $200 for the development of teachers.

"Lending Hand" – a grant of $1,000 to MTAS to help Last June 18, 2020, the joint project by Medical Technology International Alumni Society (MTIAS) and Medical Technology Alumni Society (MTAS) provided 400 meal packs to the front liners and skeletal workforce of the Far Eastern University- Dr. Nicanor Reyes Medical Foundation (FEU-NRMF). Both medical and non-medical personnel benefited from the project.

Daisy Goco says; "*As the world continues its battle against the deadly virus, FEU-NRMF frontliners are selflessly facing the challenges of the COVID-19 outbreak. Medical frontliners like doctors, nurses, medical technologists, radtechs, respiratory therapists, and non-medical employees like drivers, office clerks, security guards, and utility personnel leave the comfort of their homes and respond to the call of their duty.*

While the frontliners in FEU-NRMF dedicate their time and effort in serving others, MTIAS and MTAS responded by helping them through a food-giving project. The MTIAS initiated the project and gave MTAS P49,910 (US $1,000) funding to facilitate it in the Philippines."

Typhoons Rolly and Ulysses:
Typhoon Rolly: At 20:50 UTC (12:50PM) on October 31, 2020 – Rolly made landfall in Bato, Catanduanes at peak intensity as a Category 5 equivalent super typhoon. PAGASA reported 10 minute sustained winds of 220km/h. This made Rolly the strongest recorded tropical cyclone to ever make landfall anywhere in the world! In the wake of the landfall, the storm brought severe flash flooding as well as lahar flow from the nearby Mt Mayon. Homes

and agriculture were destroyed and over 390,000 out of 1 million evacuated individuals have been displaced.

Typhoon Ulysses: Near midnight on November 11, 2020 Typhoon Ulysses made landfall as Category 2-equivalent typhoon. The typhoon brought heavy rains in Central Luzon, nearby provinces and Metro Manila that caused severe flooding due to overflowed rivers and overspilling dams forcing the release of large amounts of water. Seven gates of Magat Dam were released to prevent dam failure but caused widespread floods in Cagayan and Isabela.

MTIAS Response: On November 5th, MTIAS responded with an appeal to the membership and friends for help. In a matter of a few days, the Society established a working relationship with the Missionaries of the Sacred Heart Mission Office to help in alleviating the suffering of our people.

The following is the result of the kind response of our members, friends and partners:

IV iv. DAN AND ELOISA DOMINGUEZ SCHOLARSHIP (formerly *Dan Dominguez Master's Degree Program)*

*"**'To give back'** is the best thing that I can do as a successful Clinical Laboratory Scientist who graduated from Far Eastern University NRMF. A kind of Service, I promised to myself that I will fulfill!*
*That is why I committed to establish the **Dan Dominguez Master's Degree Program**, a personal choice!*
I tried to follow the vision and the unselfish goals of others who volunteered to help people like us, the newly arrived unlicensed Med Tech graduates from the Philippines. For what they have done to us to become successful in our chosen profession passing the CA CLS licensing exam. it's only fitting that I look back and return the favor to others who need help."

Dan Dominguez
FEU-NRMF President 2014-2016

The Master's Degree Program is a two-year course of study started in 2015 as part of the Society's pledge to elevated the quality of the teaching staff of the School of Laboratory Sciences. The first recipient of the Program was ***Kathleen Labrador*** who in 2015 started the Master's Program at Women's University. She graduated with honors in 2017. The grant of $300 per semester was originally shouldered by the Society.

In 2018, this Program became the "*Dan Dominguez Master Degree Program"* and the subsidy is provided by none other than our past president Dan Dominguez. This Program was officially unveiled at the 2019 Homecoming at FEU-NRMF Fairview. The first recipient of this new program is ***Terry J Jaula***, staff at the School and a graduate of 2017. In 2015, TJ got 6 of the 9 Excellence Awards.

In 2020, "*Dan Dominguez Master Degree Program"* continue to flourish under the philanthropy of Dan and Eloisa Dominguez. He has selected a new awardee to the program after TJ Jaula finishes her Master's. His name is Kyle Valencia – more information to follow.

As of July 9, 2020, the name of this program has been changed to "Dan and Eloisa Dominguez Scholarship" to reflect the commitment of husband and wife team of Dan and Eloisa Dominguez.

V. CONTINUING EDUCATION SERIES

Our Continuing Educational Series to provide cutting edge knowledge in Laboratory Sciences is headed by Tess Crisostomo whose passion is teaching.

Here are the concluded and planned CES:

- April 9, 2016: CLSE Committee headed by Tess Lopez Crisostomo had provided two successful lecture series, headed by Maxi Edora and Dan Dominguez in partnership with PAMET (NOR-CAL) at the University Medical Center of Southern Nevada and;

- January 17, 2018, in partnership with our own alma mater and the FEU-NRMF MTAS at Bayanihan Center, United Laboratories, Philippines.
- April 27, 2019: CES at Arizona Charlie's Decatur and Casino, Las Vegas.
- More info are available in our website.
- January 14, 2020: In spite the unexpected eruptions of Taal Volcano on January 12th, 2020, the CES at the Bayanihan Hall of United Laboratories, Mandaluyong with Dr. Franciso Duque III, Secretary of Health as the main Guest Lecturer. This event is a joint sponsorship of MTAS, SMT, MTIAS and PAMET NOR-CAL.

2023

Dear Officers,

Happy New Year again to you all.
Please let us know when your departure/arrival date and availability are as far as our Alumni homecoming, ANAK-TNK, and medical mission are concerned.

1. January 7, 1 pm CE seminar by Shirley, Ricky Marinez, and Dean Bernard in FEU-NRMF, School of Medical Laboratory Science.
Who is going? Please, contact Shirley and Dean Mabel and let them know. Messenger text or call is preferred.
@Tony, I just talked with Kath Joy Labrador; if possible, you will be requested to make the closing remarks on the seminar. They asked me to do it, but since you are there, it's right for you to make the closing remarks.

2. January 18 - Alumni Homecoming
Cyd, have you heard from the MTAS group about any program details? What are we to expect during the event?

Bert, are all the Academic Excellence, Presidential, MOF, and Master's Certificates ready for printing? Can we follow up with Dean Mabel and Kathleen Joy Labrador?

3. January 20 - 10 AM visit in ANAK-TNK shelter home
Luz, Nes, Dan, Eloisa, Maxi, and Dommie will go from the BGC condo together. We may rent a van to accommodate all of us. You can join us, para sama-sama tayo in one day event. Do you know a contact person with a van to accommodate us? We will rent the van and pay the driver as well.

4. Medical mission in Ilocos Norte = 2 days medical mission, in collaboration with fellow alumni, a retired MD.
Luz we need a tarpaulin. Kathleen Joy will help us make one. We need the layout, MTIAS logo, design, and verbiage. Bert and Cyd, can you help us with this?
@Luz and Nes, please provide details (Place and dates) about the medical mission so we can do the layout and verbiage.
Eloisa was able to get two bottles of clinitest multistix strips. We have glucometers and strips as well. I asked Joy to buy urine caps from Bangbang. Also, some needed essential medicines—updates to follow.

So, if I ever need to remember something, please let us know.
As I mentioned in my last conversation with Bert, he says we can subsidize our expenses for the van rental, driver, and gas. However, I want to include expenses to buy medicines and laboratory supplies needed for the medical mission. Is this ok?

Salamat po!
Dan

2024

ALUMNI HOMECOMING. January 17, 2024 at 6PM in the Philippines, same Venue as last year at Le Reve Pool Party. Attire: Western. Will honor the Golden celebrants, 1970-1974 graduates. Silver , 1995-1999.
In the morning, meet up with Pres Reyes, Dean Mabel, VPAA Lennie, faculty, etc., lunch provided by school. The following will be joining: Dan and Eloisa, Maxi and Dommie, Luz and Nestor, Tony Ricafort, Vicky Umayam and Tess Crisostomo.
Homecoming in the evening, no ANAK visit. Maxi has 7 additional attendees. Most are lifetime members from her class. Dan has 5 attendees also. Officers going are Tony R, Maxi, Dommie, Dan, Eloisa, Luz, Nestor, Tess. Can pay at the door. Luz will give names from her batch. With Tess are Cenon, Tess brother (LT) and another person.

MATAMIS PROJECT VISIT. Dan and Eloisa flying to Cagayan de Oro, meet with MT colleagues then proceed to Davao City on March 2, 2024. Will meet with Matamis coordinator, Marites Gonzalo. Initially to go to the mission location. However, from hotel is 5-6 hours drive. To visit school will take 30-40 mins motorcycle ride. They cannot do the MC ride so he asked if they can meet them at the hotel (Davao City). This project is personal to BERT so Dan will pursue.

MEDICAL MISSIONS.

1. Abucay, Bataan. **Date: January 13, 2024.**

2/25/24: The last and final medical mission of the FEU-NRMF MTIAS in collaboration with the Mata-Tule Medical Society, Mariano Marcos Medical Society Medical students (2nd n 3rd year), and the Cabugao, Ilocos Sur local government RHU n LGU. Proud to serve!

REQUEST FOR BUDGET FINAL APPROVAL.
$7,000 budget for the med mission was approved on Nov 4, 2023. Some costs like transportation, driver, van, gas, toll, etc. were underestimated, hence, the new computation showed the need for additional $2,000. Any excess that will incur will be returned to the Society account.

2024 President's Message

Dear Fellow Alumni,

Greetings!
A summary of our Philippine trip.
We started the year 2024 with the objectives of fulfilling our activities as planned with great success. What a team of officers we have!

First, we want to thank our donors especially our dear alumna, Mila A. Emerson for her generous donation of $5000, Joey Mantupar ($500), Eric Antonio ($200), and other alumni and MT colleagues who helped donate with the souvenir journal fund-raising. Special mention to PAMET-USA Sacramento chapter for giving $1000 and manpower support during our first medical mission in Abucay, Bataan last January 13, 2024.

The money collected helped a lot in our pursuit of helping our Kababayans in providing medical missions in the communities we served.

Our second medical mission was in Libon, Albay, the hometown of our past president, Antonio S. Ricafort held last February 14, 2024. It was a successful event with great teamwork. We also attended and supported him during his Annual Gift Giving for the children, last February 13.

On February 17, we had our 3rd medical mission in Dingras, Ilocos Norte. The next day, February 18, we served the community of Sarrat, Ilocos Norte, for our 4th medical mission. It was great to see the medical students of Mariano Marcos Memorial Hospital volunteering to participate, observe, learn and be mentored by us in pursuit of their learning and gaining extra needed experience.

On February 25, we had our 5th and last medical mission in Cabugao, Ilocos Sur.
A well-organized event supported by the mayor and local government unit personnel.

All in all, we are very grateful for the opportunity to serve and contribute to the lives of others. We want to thank all the mayors and local government unit (LGU) personnel in providing manpower and food during our community services.

Our FEU-NRMF MTIAS officers namely, Antonio Ricafort, Luz Guerrero, Nes Guerrero, Maxi Edora and the spouses Dommie Edora, Eloisa Dominguez and Tina Ricafort represented our Society during the medical missions with great pride and honor.

Our services through your trust, kind support and financial assistance is well represented. We will provide you with in depth accountability and transparency to be reported by our dedicated Secretary/Treasurer, Dr. Luz Guerrero. We will always represent our Society with pride, honor and dignity.

In addition to our community outreach and medical missions, last January 16 we met with the current and past Presidents of FEU-NRMF; Mr. Ritchie Reyes and Atty. A. Abad, VPAA Lennie F. Natividad (Vice President for Academic Affairs), Mabel de Guzman (Dean of SMLS), and the faculty for a courtesy visit.

On January 17, 2024 that's when we celebrated our Alumni Homecoming Reunion at the La Reve Resort with a country Texas theme. This event is to recognize the Golden and Silver Jubilarians Alumni. We also handed out our Academic Excellence, Leadership, and the Scholarship awards that night. It was a night to remember.

We hope to continue serving our school, profession, students and the community for more years to come. I ask you to continue supporting our Society, the FEU-NRMF Medical Technology International Alumni Society.

Maraming Salamat Po!

Dan Dominguez, CLS
President
FEU-NRMF Medical Technology International Alumni Society.

VIII. WEBSITE:

Our website has been running since 2009 and many changes have been made courtesy of the memberships' comments and suggestions. The website is dedicated to the late Dr Horatio Ylagan, past Director of the School of Medical Technology and is managed by Bert Gomez.

In 2013, Adobe Dreamweaver software was purchased by the Society to improve our website.

In late 2017, the website server has been moved from Host Excellence to Host Papa.

In 2019, our website is managed with WordPress. Cyd Sartoris and Dan Dominguez were added as administrators.

IX. FEU-NRMF SCHOOL OF MEDICAL TECHNOLOGY/LABORATORY SCIENCES

July 19, 2021: Announced the appointment of Magdalena F. Natividad, PhD as Vice President for Academic Affairs, Far Eastern University-Nicanor Reyes Medical Foundation

August 2021: Mabel de Guzman appointed as the new Dean of the School of MT Laboratory Sciences

A Message from Ma. Benilda De Guzman
Dean, School of Medical Laboratory Science

It is with great pleasure that I share the achievements of the School of Medical Laboratory Science (SMLS) of the Far Eastern University-Nicanor Reyes Medical Foundation.

Since its establishment in 1961, the MT/MLS Program of FEU-NRMF has produced graduates who are globally competitive, highly employable, and many of whom have become prominent in the national and international scene. It has produced prominent health practitioners, PRC licensure examiners, a Licensure examiner in California, government health officials, and officers of national and international organizations such as the Philippine Association of Medical Technologists PAMET) not only in the Philippines but also in the United States, and the Philippine Association of Schools of Medical Technology (PASMETH).

The Medical Technology/MLS Program has produced more than 350 Medical Technology Licensure Examination topnotchers since the examination was started in 1970. It is consistently recognized by PRC as one of the top-performing schools in the country with an average Passing Rate of 97% in the last five years.

The students and faculty have been enabled to participate in linkages forged with international institutions including, KhonKaen University (Thailand), the ASEAN Association of Schools of Medical Technology (AASMT), the Pan-Asian Biomedical Science Consortium (PABSC), and The Consortium of Allied Health Science Colleges and Universities that is composed of the Daegu College of Health Sciences (South Korea), the KhonKaen University (Thailand), Kumamoto University (Japan), and Centro Escolar University (Philippines) and the FEU-NRMF (Philippines).

Through the strong support of the University management, competent faculty members, and staff, these achievements are some of the great prides of Far Eastern University-Nicanor Reyes Medical Foundation.

In tune with the changing digital world, we are now present in Facebook at https://www.facebook.com/groups/641460959304869/ created November 2, 2014 Admin: Dan Dominguez

All these successes will not be possible if not for the indefatigable and pioneering spirit of the Executive Committee composed of all the Officers and Members of the Board. Not to be outdone are the countless alumni all over the world and our Regional Coordinators who have contributed their treasures and talents – too many to list here, but you know who you are. Your reward is the current state of our Society.

Our great supporters from the Philippines – Dr. Lennie Natividad (Vice President FEU-NRMF Academic Affairs Medical Foundation), Mabel de Guzman, Dean of the School of Medical Technology/Clinical Laboratory Sciences) and Alice Aldave, Francis Dematera, Yvonne Valdez and Daisy Goco (presidents of the FEU-NRMF MTAS) and Dr Levy dela Rosa (Head of Parasitology and Microbiology) brought us even closer and helped foster better communication and empower all alumni/alumnae and students of the FEU-NRMF School of Medical Technology.

No organization can exist without the initial outlay of funds in 2009, and we thank the following for providing seed money in the early stage of Society:
